Career Objective

Computer science student with strong fundamentals in OOP, OS, and computer networks, and experience in full-stack development (HTML, CSS, JavaScript, Spring Boot, MySQL). Skilled in problem-solving and algorithmic thinking through 500+ DSA problems on LeetCode, Codeforces, and GeeksforGeeks. Seeking a software engineering internship to build scalable distributed systems and gain expertise in backend.

Technical Skills

- **Languages:** Java
- **Web Technologies:** HTML, CSS, JavaScript, Git, GitHub
- **Databases:** MySQL
- **Core CS Concepts:** OS, CN, DSA, OOP, DBMS

Projects

KrushBook - Social media and e-commerce platform for farmers

- Developed a cross-platform web application using React Native and Expo, designed as a social media and e-commerce platform for farmers. It enables farmers to share videos, images, and thoughts, fostering a community-driven environment
- The integrated e-commerce feature allows them to sell agricultural products, fertilizers, and rent farming machinery, enhancing accessibility and trade.
- Additionally, real-time weather updates provide crucial insights, while the Gemini API-powered chatbot assists with agriculture-related queries.
- The platform prioritizes an optimized user experience with an intuitive interface, seamless navigation, and responsive design for enhanced usability

Education

Government Engineering college Hassan, Hassan

Dec 2022 – Present

B.E in Computer Science and Engineering

CGPA: 7.7

Oxford P U Science College, Nagarabetta

2022

PUC Percentage: 87.5

Additional Information

- **Interests:** Reading books, problem-solving
- **Coding Profiles:** LeetCode
